### THE LITTLE BOOTS. Only two little boots by the fire so bright,

Only two little stockings to mend to-night; The one who owns them is snug in bed, Where the moonbeams dance on his cu head. These little boots give me tramble to-day, Bringing in wad from out-door play. Scattering pebbies over the floor. Transling dirt in at the great half door.

These little boots gave me sorrow to-day,

Straying from mother's sight away; silmbing trees and wading streams, Chasing shadows and snnny beams. These fittle stockings, so worn and gray-Have these they treasures caused trouble

Have these they treasures caused troop day? Ah! indeed they have, in racing about, In Joining play and merry shout

Alas, I have had trouble to-day, And yet would I give these transures away? You'd I have the places empty to-night Of the little book with took so bright?

An met my very heart will break
If away from my sight these books you take;
My home would be dreaky, my young heart and
And there would be nothing to make me gind So there's only two little boots se bright, Only two little slocklings to mend to night, Only one little flower, so feede and wight, Only one to smile with so sliver a light.

There was a time when four were there.

I sadly miss these three loved ones That are resting to high in their stient tombs; I miss their should and merry blay.
For three little forms are not here to day.

### VENICE PRESERVED.

gallery are antique paintings of different the front entrance is a stone bas-relief the reign of James the Second, prosecuparts of the city which are still unaltered, and one by Bassano, representing a scene in his right hand and a shoe in his lap. against everybody who had in any way in St. Mark's Square, is so placed in the His left hand is extended open towards given "aid or comfort" to the Ducal palace that you can look from it through a window and see the exact reality in existence now. The surseen at other seasons. In summer the veys, if correctly made, will settle many heat is semi-tropical, and adapted to the interesting points in reference to the habits of many African species. In the units of length used among the aucients. winter the large tracts of marsh land Thus Herodotes states that the Egyptian and swamp are attractive for a different cubit is equal to the Grecian cubit, and reason. But in autumn I found other that the Great Pyramid has sides exactly indications of animal life, smaller it is five hundred Egyptian or Greek cubits true, but far more prominent. The in length, and covers exactly twenty Eve sandy hills and plains abound at all arura or Egyptian acros, the arara contimes with insects, which would yield a taining one thousand square cubits, rich treat to the entomologist, but I, Again, the Parthenon at Athens, accordunfortunately, reversed the conditions, ing to other historians, gives the Greek and proved a rich treat to the units of length, and by modern measureinsects. At the time of my visit ments of this ancient building, the mean the autumn rains had commenced, but length of the Greek foot is 12.149 inches, the weather was still hot, and the and of the Greek cubit 18.224 inches. ground had been well moistened. Multiplying the cubit thus ascertained Up rose from this hot-bed, steaming by 500, the length of the side of the with moist air, myriads of goats. No Great Pyramid should be 9112 inches. word can express the multitude and the The mean length of the side of the fury of this great army, whose whole Pyramids as obtained by examining the energies seemed devoted to the annihifa- structure itself, is calculated to be 9710 tion of the victims who had unwarily inches, and thus a reasonably accurate come among t them. They covered standard of ancient measures has been everything. The color of one's horse, fixed. The difficulty in the way of aror of one's friend's coat or hat, was alike riving at the true result is greatly enundistinguishable. The whole exposed hanced by the fact that the cusing stones surface of skin was soon bleeding from of the pyramid have been removed, their attacks. They entered the nostrils The sockets cut in the rock to receive and the throat; their stings penetrated the corner blocks still remain, and the gloves and stockings. They were, we calculations as to the actual width of were told, unusually abundant, owing to the easing stones are affected by errors figure plagued him. If he was a mock the long drought and the heat of the arising from this source. summer, and residents said that they had never known them so troublesome. They literally darkened the air in their flight, and nothing could resist them. After

Galtant and Genereus. M'lle Gabrielle de la Perrine, the newsgirl of the Kiosque in front of the crossing some miles of water exposed to Grand Hotel in Paris, about whom the their attacks, I and my companion terminated our excursion by taking advan-tage of one of the river steamers plying all observers at the late opera balls. At between Aries and the Tour St. Louis, the last of these balls, just as she was and, once on board, we in a great meas- leaving the ballroom with some merry are escaped. As we ascended the river, male and female companions in order to some sportsmen came on board from one go to the Maison Dorse, where they inof the stations, and we learnt that they tended to take supper, a poor woman, had been tairly beaten by another division of our enemies. These gentlemen her arms, stood on the corner of the had gone into the Camargue to kill birds, street, implored her to give her somebut the insects had checked the thing. M'lie de la Perrine, who was slaughter, at least for a time. I have dressed in the costume of a soldier, gaily often suffered from gnats and mosquitoes took off her cap and collected money for in Spain and the West Indies; I have the beggar woman among her comeven been exposed to the flies that ren- panions. The proceeds of her collection der the plains of the Danube almost unshe tied up in her handkerehief and gave inhabitable, but I certainly never before it to the beggar-woman. The latter was flying about the portice of the church, are the same to day as they were deposited by the artist three hundred years ago. In the night, two little lamps:

The latter was patient effort. A study of the words that it belongs to furnishes us with a sure clue to the beggar-woman. The latter was about to the beggar-woman. The latter was from every point of view, first acquiring the took a book, but found him self-trying to read the coals in the grate and so adapting that expression to the latter was about to the beggar-woman. The latter was from every point of view, first acquiring the took a book, but found him self-trying to read the coals in the grate and so adapting that expression to the latter was about to the beggar-woman. The latter was form every point of view, first acquiring the took a book, but found him self-trying to read the coals in the grate and so adapting that expression to the latter was about to the beggar-woman. The latter was the took a book, but found him self-trying to read the coals in the grate and so all the took a book about to the beggar-woman. The latter was the took a book but found him self-trying to read the coals in the grate and so all the took a book about to thank M'lle de la Perrine, when the took a book, but found him self-trying to read the coals in the grate about to the beggar-woman. The latter was the took a book is the took a book begar about to the beggar-woman. The latter was the took a book is the took a book in the took a book is the took a book is to the beggar-woman. The latter was the took a book is the took a book i A writer in Blackwood defends rather to her. But the young man deliberately walked down to the widow Cragie's. than consures this custom, and regards opened the handkerchief, took the He stepped up to the door as usual, but it not a whit worse than the style of money from it, folded up the handker-Edna was engaged. He asked to have dress for a fashionable ball in what is chief and put it in his pocket. He then her called. It seemed a month before presumptuously assumed to be "the best wrapped up the money it had contained she came down. At last she appeared, society. He certainly is none too severe on the indecencies of evening parties, valuable little peckage back to the dehe middle of the room, and said, " Edna, but we fail to see in these any justifica- lighted beggar woman. The gay party

dearest." Robert replied. "I believe the best private society as it is to the claims to have predicted the earth both the red-breasts join in building the stage—lies in the intent of the person quakes in South America and on our nest," said Edna, "and I want to do my who displays, and in the mind of the Pacific coast. When the telegram appart." This was twenty years ago. To- person who beholds it." \* \* "The peared, several menths ago, stating that day, one of the handsome mansions in display is not indecent per se, as when one of our cities is the nest of a wedded an actress of high attainments and Prof. Thrope said, to a company of genpair, whose life has been sweet as a genius, in default of an actor of truth-tlemen at Hudson City, N. J., to whom pird's song, and whose hearts, like their fulness and talent enough to undertake he refers for corroboration, that a vast affections, are as young as ever. There is a great deal more in putting a little straightforward business at the beginning of life than is generally supposed.

There is a great deal more in putting a little than it is indelicate or improper for a man to hide the form by appearing in petticoats to play the part of one of the burning mass below, and had given rise The Lakes of Nevada.

Nevada has seven lakes of considerable size. Lake Tahoe, in the Sierra Nevada mountains, is 6000 feet above the level of the seventh in the Sierra Nevada mountains, is 6000 feet above the level of the seventh in the Sierra Nevada mountains, is 6000 feet above the level of the seventh in the Sierra Nevada mountains, is 6000 feet above the level of the seventh in the sevent

selves, "What will the Lords do?" In personal appearance Lamartine The right answer would be : If the bill, bore some resemblance to Wordsworth, after being carried by a decisive majority though his face was less rugged and in the Commons, in pursuance of the weather-benten.
